### Upload Files to Controller

312

310

[Upload Software](#) | [Remove Software](#) | [Backup](#) | [Restore](#) | [Delete Files](#)

You can upload client software to the controller. This allows end-users to install the software into their system from the 'Install Software' link, located at the bottom of the page

Language:  314

Upload Files:  316

The following are the required files and they are located in 'Client CD 1', if uploading from your installation CDs.

318

320

data1.cab	<input type="text"/>	<input type="button" value="Browse..."/>
data2.cab	<input type="text"/>	<input type="button" value="Browse..."/>
data1.hdr	<input type="text"/>	<input type="button" value="Browse..."/>
isetaup.cab	<input type="text"/>	<input type="button" value="Browse..."/>
isetaup.zip	<input type="text"/>	<input type="button" value="Browse..."/>
kernel.exe	<input type="text"/>	<input type="button" value="Browse..."/>
isapplet.jar	<input type="text"/>	<input type="button" value="Browse..."/>

Upload the following file for users who may want to download the self extracting executable file to their system

ClientInstall.exe   322

324

Upload
